REinventing MLS

# MRED Has Taken Action to Address the Needs of our Brokers!

MRED has created private network within connectMLS that provides "mini-drafts" of property information for those listings you choose to put in the network. This allows you to enter your new listings in a place where they can be shared with other brokers before exposing them to the public.

What's it called? MRED's **Private Listing Network (PLN)**

Listings are viewed exclusively by MRED Participants and are not included in IDX. There is no minimum or maximum period of time listings can be Included in the PLN. They can be in for whatever amount of time chosen, within the written listing agreement.
