

Want YOUR listings on YOUR website? The SMyL widget has you covered with free iFrame solutions.

SMyL brings to you various types of iFrame solutions that display your listings automatically from the MLS – no updating on your side is ever needed.

Just login to the SMyL widget, copy the embedded code and place it on the website you want to display your listings on. It's that easy. You can also easily change the colors used to better match the theme of your website.

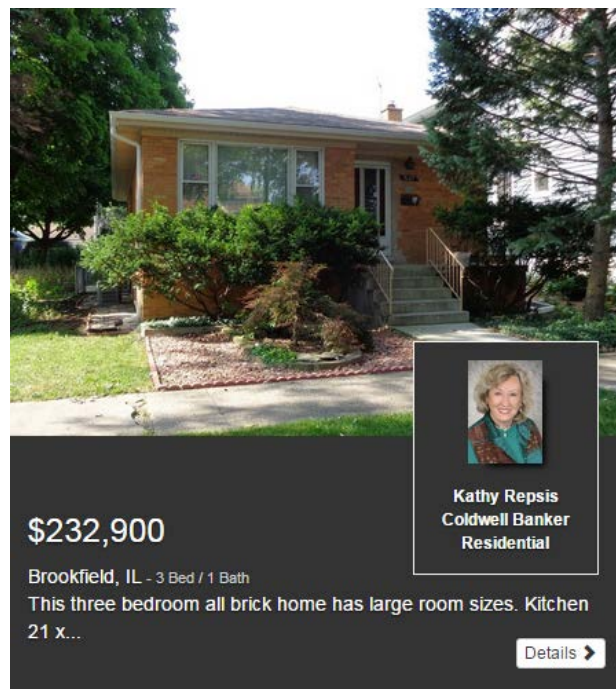

There are a few different iFrame solutions you can choose from including the carousel and recently sold options.

In the Managing Brokers version of the SMyL widget, the iFrames will display office listing data including listings from any satellite office as well.

SMyL iFrames will also automatically display Open House information on listings too.

Currently, hundreds of MRED customers are using SMyL iFrame solutions to display their listings on the web including blogsites like wordpress and tumblr.

Improve your online referrals today with the SMyL iFrame solution!
