

# Frequently asked questions

How do I search for Private listings?

To run a search for Private listings, select the Property Type you wish to search for, then use the Status drop-down to select the Private statuses you wish to include.

To setup a search for your clients to receive Private listings, go to “Add/Remove Fields” at the bottom of your search page after selecting your desired status(es), and add the field “Can this listing be shared with Clients?”. Select “Yes”, then click “Save Search”.

With the connectMLS Client Portal 2.0, clients can search for listings on their own, including Private Listings that can be shared.

Can this listing be shared with Clients?:

Yes X
